Hi, my name is Janet Collins and I am the Director of the **Expedition** program at Emmanuel Bible College. I would love to share with you some details on this life changing program that you may wish to pass on to people in your congregation.

Expedition – Journey with a purpose – is an adventure of a lifetime. This intense discipleship and training program concentrates on skill, team, and character development while giving students an opportunity to experience various types of ministry. While in Kitchener the team is involved in various practical seminars that equip and prepare them for the ministries they are involved in. They also experience various local ministry opportunities aimed at exposing them to different styles, age groups, and types of ministry.

Out of the 16 weeks of the program, they are away for 8 weeks. One week is a combination of Medeba Adventure camp and Centre for Student Leadership. Two weeks are spent in Montreal, Quebec. One weekend involves leading a junior high retreat for First Nation Youth. One week is spent with Centre for Student Mission an inner city mission in either Toronto or New York depending on the year. A key element of the program is the four week overseas training and cultural experience. Expedition 2008 went to the Philippines, Expedition 2009 went to Bolivia, and Fall 2010 Expedition will be going to Peru.

During the program students have the opportunity to earn 6 academic course credits as well as 2 units of field education. These credits may be transferred into any program. **Expedition** will help students discover their gifts, abilities, ministry interests, and the direction God has for their life.

The total cost for this program is \$9600. Students are permitted to fundraise up to \$6000 of this amount. This program has also recently been approved for OSAP funding. Space is limited, so I encourage you to inquire now if you are interested.

If you have any questions about the program, would like more information, please feel free to contact me:
